Celebrating OT Month

From the Chair

Support Moorhead's OT program and help build a community!

The purpose of this newsletter is to provide information to our OT community and to continue to share the important work that our students and faculty are doing.

This month, we are featuring an article about the National PT/OT Week and the role of occupational therapy in the treatment of people with advanced neurologic conditions.

OT Class of 2021 Outreach

The OT Class of 2021 will be presenting their final capstone projects on May 13 from 4:30-8:30 PM. You're Invited to Capstone Event

OT and PT Students Travel to IACO in BB

Students from the Omaha, Alaska and Regiscampuses and international cohorts designed and presented 24 evidenced-based poster presentations through Zoom. Shirley Blanchard, PhD, Feldhacker, MD, and Kezlak, MD, were the projects' mentors.

Jensen Presents on Stroke Rehabilitation

Lou Jensen, OTD, OTR/L, is part of a team involved in a project funded by the American Occupational Therapy Foundation. The project is supported by the American Diabetes Association for Healthcare Access for Families with a Child with Diabetes. "Impact of COVID-19 on Family Quality of Life and Healthcare Access for Families with a Child with Diabetes." The project is supported by the American Diabetes Association for Healthcare Access for Families with a Child with Diabetes.

You're Invited to Capstone Event

The OT Class of 2021 will be presenting their final capstone projects on May 13 from 4:30-8:30 PM.

Department Scholarship Update

The Graduate School is offering all Creighton alumni a scholarship for 25% off tuition for postgraduate degree programs. Learn more and apply.

A recent Oklahoma City University and University of Colorado, University of Colorado Denver, and Teikyo University in Japan partnership between a project with the title "Teikyo University in Japan and Oklahoma City University to present a multidisciplinary student research symposium at the 28-March Exchange Congress in March 1. Using an interactive platform, students and faculty from both institutions presented their research, which was heavily involved in improving practice standards and interdisciplinary collaboration for patients with advanced neurologic conditions.
