Targeted Therapies in the Treatment of Cancer

FEATURING

Amy Pick, PharmD, BCOP
Associate Professor, Pharmacy Practice

Kelly Nystrom, PharmD, BCOP
Associate Professor, Pharmacy Practice

THURSDAY, SEPTEMBER 14, 2017 | HOMECOMING WEEKEND
Hixson-Lied Science Building, Room G04, Creighton University Campus
5–6 p.m. Dinner and Exhibits | 6–9 p.m. CE Program

Designed for pharmacists and pharmacy residents
Provided by Creighton University School of Pharmacy and Health Professions and Creighton University Health Sciences Continuing Education

SESSION I:
Targeted Therapies: Changing the Landscape in the Management of Cancer
Amy Pick, PharmD, BCOP
• Compare and contrast the rationale of traditional chemotherapy, targeted therapies and immune-related therapies
• Review the mechanism of action of targeted and immune-related therapies with a focus on the molecular interaction
• Describe strategies to appropriately manage the common adverse effects for targeted and immune-related therapies

SESSION II:
A Moving Target: The Role of Targeted Therapies in the Management of Cancer
Amy Pick, PharmD, BCOP | Kelly Nystrom, PharmD, BCOP
• Discuss the role of targeted therapies in the management of cancer
• Apply targeted therapies to the management of common cancers
• Describe the financial impact of targeted therapy on the patient

SESSION III:
You’ve Hit the Target: Now What?
Kelly Nystrom, PharmD, BCOP
• Identify potential long-term effects and address quality of life concerns after cancer treatment
• Discuss the role of the primary care physician after cancer treatment is complete
• Explain various survivorship programs that have been developed
