ESSAYS:

1. How would successful completion of the residency program you are applying for benefit your personal and professional development?

2. What attributes would a therapist in the area of residency you are applying for need to possess in order to communicate and collaborate with University personnel, hospital personnel, entry-level occupational therapy students, clients, and their families on a highly successful level? Please describe.

3. What do you anticipate as some potential challenges and rewards of completing a residency program at this stage in your career?
