Creighton University Orthopedic Physical Therapy Residency

Program Description

The program provides a post-professional clinical residency experience in the specialty area of orthopedic physical therapy. The experience includes clinical practice, clinical mentoring, teaching in the area of orthopedics, and opportunities for research and scholarly productivity. The resident will graduate with advanced clinical practice and teaching skills and will be eligible for the American Board of Physical Therapy Certification Examination.

Mission Statement of Orthopedic Program

The program is committed to developing resident expertise in advanced orthopedic clinical practice, teaching, and service. The program is dedicated to providing focused, ongoing mentorship to prepare residents to become recognized specialists and leaders in orthopedic physical therapy practice.

Core Competencies

Upon completion of the CU Orthopedic PT Residency Program, the graduate should be proficient in the following areas:

- Interpersonal Skills and Communication
- Clinical Judgment, Thinking, and Science
- Patient Care Abilities
- Reflection
- Ethical and Moral Character
- Teaching Practices

Program Details:

* Resident year is August 1—July 31.
* Resident is a Creighton University employee and receives benefits per Creighton University programs.
* Residents complete 28-30 hours per week of clinical practice and 12-14 hours of educational opportunities.
